

SUPPORTING OUR ENVIRONMENT

Our mission - cabinetry with purpose – embraces our passion beyond just lifestyle cabinetry. Our deepest purpose is as a company devoted to a holistic approach to environmentally sustainable design, manufacture and installation.

Helping you live green with environmentally preferable products

- ✓ Using environmentally friendly products sourced from accredited and eco-conscious suppliers that meet or, in many cases, exceed industry standards.
- ✓ Choosing quality materials that provide product longevity, certified LCARate PLUS (a detailed audited Life Cycle Assessment (LCA) rating system).
- ✓ Minimising environmental impact with certified timbers - FSC (Forest Stewardship Council) CoC (Chain of Custody), AFS/PEFC (Australian Forestry Standard/Programme for the Endorsement of Forest Certification Schemes).
- ✓ Keeping your family's living environment safe - creating healthy living conditions for a less toxic home with E0 or Super E0 (low/no formaldehyde), low/no VOC paints, finishes and adhesives contributes to indoor health and environment quality.

Supporting OUR planet through sustainable building practices

- ✓ Contributing to improving the environmental performance of the manufacturing and building industries – breaking new ground in functional conscious design.
- ✓ Minimising waste and maximising recycling with innovative modular designs, sized to get the most out of each board.
- ✓ Making environmental considerations a standard part of our business process and products by continually striving to reduce our carbon emissions and undertaking various initiatives to minimise water use and wastage.
- ✓ Providing a new approach to the building cycle with pre-assembled cabinetry, saving on labour costs.
- ✓ Using recycled packaging and eco-conscious transport logistics.

SUSTAINAPOD™

SUSTAINABLE. PRE-ASSEMBLED. MODULAR.

This information sheet makes it easy for you to buy with conscience, making transparent our environmentally preferable product specifications.

SustainaPod® Outdoor Kitchen Range

12mm Exterior Grade Board - engineered wood product – a cellulose based material

- ✓ Environmentally preferable, meeting Green Building Council of Australia (GBCA) requirements for Green star rated projects
- ✓ Low formaldehyde, low Volatile Organic Compound (VOC)
Total VOC Emission Rate: <0.196 mg/m²/hr (24 hours)
Formaldehyde Emission Summary: Result 0.059 (mg/m²hr)

19mm Natural Granite

- ✓ Long-lasting and durable, minimising the need to replace and reducing waste
- ✓ No VOCs emitted directly from granite
- ✓ Easy to clean and maintain thus does not require harsh chemicals that can damage the environment
- ✓ Recyclable

Components and Parts – stainless steel - approximate 60% recycled content

- ✓ Certified Energy System (ISO 50001) - is standard, which is valid worldwide and provides guidelines to help reduce energy costs and greenhouse gases.
- ✓ Certified Environmental System (ISO 14001) - helps systematically improve environmental performance. Measures are continuously recorded in an environmental programme and implemented. Audits are used to continually monitor compliance and efficacy.
- ✓ Quality Management System (ISO 9001)

Coming Soon! SustainaPod® for Bath, Laundry and Indoor Living

- ✓ Making your home safer and less toxic with E0 or Super E0 (low/no formaldehyde), low/no VOC paints, finishes and adhesives
- ✓ Contributing to indoor health and environment quality
- ✓ Innovating with modular designs, sized to get the most out of each board - minimising waste and maximising functionality
